Claim <sup>4</sup>~~23~~ (twice amended)

An isolated nucleic acid molecule which hybridizes to the [MAGE-1] nucleic acid molecule [of claim 12] which codes for the MAGE-1 tumor rejection antigen precursor as set forth in SEQ ID No: 8 under stringent conditions and which codes for a tumor rejection precursor.

Please add the following claims:

149. The host cell of claim 147, wherein said host cell is a mammalian cell.

150. The host cell of claim 148, wherein said host cell is a mammalian cell.

Respectfully submitted,

FELFE & LYNCH
